

brings you
integrated
credit card processing!

TAKE YOUR BUSINESS TO THE NEXT LEVEL WITH X-CHARGE™ INTEGRATED CREDIT CARD SOFTWARE

Mailware added this exciting feature to your Software! This *INTEGRATED* feature allows you to enter credit and debit card payments directly through your payment screen. You no longer need to purchase or lease costly credit card terminals. With this feature within your software you will have the ability to manually enter card information on your keyboard. You can accept all major credit and debit cards. X-Charge Integrated Credit Card Processing is simple, easy to use, and it's free.

Designed for Windows XP, 2000, Vista, and NT, X-Charge integrated credit card processing software provides merchants with a fast and secure payment -processing platform that can be used by any Windows compatible personal computer. You can process transactions via dial-up or high speed internet connection. (NOTE: Dial-up requires an external modem)

MailWare and X-Charge are committed to offering your usiness the most competitive edge possible. The X-Charge team offers a FREE analysis of your existing merchant services and a full comparison on all of the rates and fees involved with processing credit cards. To date, 95% of our clients have shown savings! MailWaremakes credit card processing quick and easy and the X-Charge software gives you fast authorizations and constant reliability. It's a true advantage.

To find out more, contact your Mailware / X-Charge specialist Rick Wright using the contact information below. If you would like to take advantage of the FREE analysis and rate comparison, simply fax a recent merchant statement to 702.446.8566 with your contact information.
